THE FENCE BOOK
THE EVOLUTION OF FENCING...

From hand-split Post&Rail, to the stone walls of the Central Otago miners cottage - fencing has been enhancing our properties and protecting the things we love for generations.

A fence is more than a boundary; it is the intersection between the public and private, the work and play, the hustle and bustle of everyday life and the oasis of home.

At Boundaryline, we are proud to encapsulate the Kiwi dream. The four edges of your boundary hold everything that is dear.

We make fencing easy.
That’s the Boundaryline promise.
WE ARE

WHO WE ARE

We’re a customer-focused team, dedicated to making it easy for anyone in New Zealand to get the fence they need. We listen to what you tell us and work with you to reach the best solution for your project.

Innovation has been at the heart of what we do at Boundaryline Fencing Systems since the company was founded in Invercargill, with a range of timber Post&Rail fencing many years ago. We quickly found there were people throughout the New Zealand construction industry that liked our way of doing things, so our range of fencing systems grew quickly to meet the requirements of the market.

Today, with the widest range of fencing systems available on the New Zealand market and located in Auckland, Christchurch, and Invercargill – we have the products, service, and attitude to make fencing easy for you.

Boundaryline is a part of the communities we work in. People and relationships are paramount to our success.

Boundaryline is an established market leader in the fencing and gate industry, and recognises the driving forces that got us there. We are loyal to ourselves, our customers and our company.

As innovators, Boundaryline is always looking for ways to develop, improve and lead industry change while staying true to our values.

Boundaryline stand by our work and exceptional service. Every deal must stand the test of time.

When selecting a fence for your home and garden, consider the spaces that the fence will border, and define the correct balance between a solid fence for privacy versus a less constricting open-style.

The Boundaryline team are here to assist you in enhancing, protecting, and adding value to your important investment – the family home.
Selecting a fence to surround your pool that will provide you peace-of-mind while enhancing the poolside landscape is key. The Boundaryline team have the knowledge and experience to ensure you choose a great looking fence while meeting all your obligations under the Building code for pool safety.

Boundaryline’s range of modular systems including DuraPanel, EliteWall and glass, can be combined to create your own unique oasis.
LIFESTYLE

The freedom of open spaces, and the peacefulness of no near neighbours is what endears the kiwi lifestyle block to many.

Boundaryline Post&Rail has been the first choice of fencing for lifestyle property owners and farmers for many years. We complete the range with the classic timber lifestyle gate range to create a grand entranceway to your property.
COMMERCIAL & SECURITY

Choosing a better fence for your commercial property will increase the investment value and ensure sufficient intruder deterrence, while remaining inviting for clients and staff. Boundaryline commercial and security fencing solutions combine strength with style, durability with low-maintenance, and provide long-term hassle-free property protection. Matching gates and automation solutions are a key component for commercial sites, and we can provide recommendation on site-specific requirements.
MEDIUM-DENSITY HOUSING

Medium-density housing may require a compromise on land and exterior spaces, however that doesn’t need to mean a compromise on quality of lifestyle. Well-designed fencing can significantly enhance outdoor living areas while providing privacy and maximizing the available footprint.

Boundaryline’s range of modular fencing systems, combined with our team’s experience providing solutions for medium-density projects, ensures we can provide you the best-suited solution for your project.
EDUCATION

The Boundaryline range provides many fence and gate options to meet the demands of childcare, primary, and secondary school environments.

The Boundaryline team have extensive experience in supplying solutions for schools with completed projects throughout the country, from the far north to the deep south. We work closely with specifiers, project managers, and installation contractors to ensure each project is completed within the required time-frame and budget.
Boundaryline DuraPanel tubular metal fencing offers a wide range of options for pool fencing, landscape fencing, schools and childcare centres. With high-quality components and a sleek, cohesive design, DuraPanel complies with all New Zealand pool fencing regulations to keep children safe and to meet council requirements.

Our DuraPanel aluminium range is designed for increased strength and offers great-looking property enhancement and protection at a cost-effective price.

The DuraPanel range of custom-made fencing offers a wide variety of styles and colours to meet specific design requirements for any project. All DuraPanel fencing is designed to be simple and quick to install, with modular components and welded panels.

Producer statements are available for pool fencing, balustrade, and retaining wall fencing compliance.

"The fencing was the best we have seen. Very nice to use, brilliant finish and the boss is pleased. We’re stoked and will always be recommending it to others."

Contact us to find a custom solution to suit your project or to match existing fences.
The EliteWall system is the preferred choice for property owners who require a cost-effective, solid panel fence that provides style, function and privacy.

EliteWall is New Zealand’s most advanced line of modular panel fencing. Made with lightweight components, yet structurally strong and simple to install.

Superior acoustic performance makes EliteWall a popular option for rest homes and motels, or any property beside a busy road.

EliteWall is the ideal alternative to concrete or block walls at a fraction of the cost, and is suitable for fencing in earthquake zones.

A complete range of infill options gives you the flexibility to choose any combination of panels between the posts: solid panels, pool fencing panels, glass or aluminum slats. The many different design possibilities are extensive.

I am very pleased with the look and the feel the new fencing is starting to create already. Thank you for all your efforts.

Facility manager, rebuild project, Christchurch
**ELITEWALL™ DESIGN OPTIONS**

**CLASSIC WALL**
- Wall height: 0.9m – 2.1m
- Panel thickness: 50mm
- Posts: 180x120mm
- Post centres: 2.530m / 2.830m / 3.130m

**SIGNATURE WALL**
- Wall height: 0.9m – 3.0m
- Panel thickness: 70mm
- Posts: 280x140mm
- Post centres: 2.630m / 2.930m / 3.230m

**ESTATE WALL**
- Wall height: 0.9m – 3.0m
- Panel thickness: 70mm
- Posts: 320x210mm
- Post centres: 2.670m / 2.970m / 3.270m

**WHAT’S GREAT ABOUT ELITEWALL™**

- **COST-EFFECTIVE PRIVACY**
  - Solid fencing at a much lower cost than concrete

- **SUPERIOR ACOUSTIC PROPERTIES**
  - Blocks up to 28 decibels of noise, great for properties beside a busy road

- **QUICK AND SIMPLE INSTALLATION**

ALUMINIUM SLATS
Aluminium slats provide a modern look and open-feel while maintaining a level of privacy for the property owner. Aluminium slats are supplied in a powder-coated finish and can be colour-matched to any standard New Zealand roof or window colour.

DURA® PANEL™ INFILL
Add a touch of class to your open-style fence using EliteWall columns combined with the DuraPanel aluminium panel range. EliteWall columns are available in a range of sizes and heights and can be supplied with a spray-texture finish or painted in colour of your choice for quick and easy installation. See DuraPanel on page 21.

LOUVRES
Aluminium louvre in-fills provide a contemporary look maintaining full privacy and allowing air-flow through the fence. Aluminium louvres are supplied with a powder-coated finish and can be colour-matched to any standard New Zealand roof or window colour.

LINEAR PANEL
The linear infill option provides a cost-effective design element for EliteWall fences to complement weatherboard-look houses. Linear panel can be used as a full height panels or as part-panels. Linear panel is painted to match the fence or to complement the property.

GLASS PANELS
Glass is easily incorporated into EliteWall fences for visibility. This is the ideal solution for areas such as pools or patios that need a good, solid fence to block the wind, but want to retain a good view. Glass panels can be full height or part-panels, and various glass grades are available to meet wind loading and safety requirements.

LETTERBOXES
An EliteWall letterbox provides the finishing touch to any residential landscape. Available as stand-alone letterbox columns or built into an EliteWall post or panel. A range of styles and finishes are available including front and rear-opening options.
For great-looking, low-maintenance privacy fencing, Boundaryline ColourPanel sets the standard throughout New Zealand. No more twisted or rotten timber fences!

ColourPanel is truly a same-both-sides fence, which makes it ideal for residential properties because both neighbours get the ‘good’ side of the fence.

ColourPanel is made from pre-finished steel, as commonly used for roofing, and is durable and stable. It will not warp and twist like a timber fence, even when a dark colour is used in any climate.

Installation is very quick and simple with modular, colour-matched components. Even DIY customers are impressed with how easy it is to get the job done!

All ColourPanel needs to maintain the same look as the day it was installed is an occasional wash-down. No painting, no staining, no problems!

I’m definitely impressed with it, especially the strength of it… it looks really good.

Fencing contractor, Marlborough

0800 003 006 / boundaryline.co.nz
Boundaryline ColourSlat is the ideal choice for screening outdoor living areas and courtyards, as it allows natural light penetration while providing privacy.

For best appearance and long-term durability, choose the standard steel ColourSlat. This is a complete system using pre-finished steel components and will not fade, warp, or twist.

If you are looking for an alternative to an all-steel fence, ColourSlat with timber panels will meet your requirements. The timber slat infill panels are manufactured from high-grade radiata pine and can be stained to the colour of your choice. ColourSlat is designed to seamlessly integrate with ColourPanel fencing, or it can be installed as a stand-alone fencing system.

We were looking for an attractive, low-maintenance slat fence to surround a new outdoor patio area and ColourSlat has met the need perfectly. We are very pleased.

Commercial building owner, Invercargill

Boundaryline’s range of glass fencing is the ideal pool fence. Our glass fencing complies with all pool fencing safety standards, and allows a clear view to and from the pool area.

Glass fencing is an easy and cost-effective solution. Matching gates are available with pool safety hardware included and all technical information to comply with pool fencing safety standards is available on request.

Maintenance is simple, which means you have a great-looking solution all year round.

The glass fencing panels can also be incorporated into the EliteWall system as an added feature.

Yesterday we saw for the first time our fabulous swimming pool fence made by Boundaryline and it is brilliant.

Home owner, Canterbury

Base size:
Fixing centres:
Introducing a unique mesh fence panel designed to support climbers and plants. Green Screen provides an initial security and barrier as a modular fence system, while the unique integrated mesh design encourages growth of climbers and provides maximum support for the most delicate plants.

Over time the fence will form a dense and uniform green wall that blends in with nature and enhances the landscape. Green Screen is a practical and great-looking landscape feature for any property.

Green Screen is a component based system and easy to install between the standard slim-line posts, or any column design of your choice.
EuroMesh is designed as an unobtrusive and cost-effective perimeter fence which offers a high level of security.

EuroMesh is manufactured to strict quality standards and is formed with longitudinal folds at height intervals for added strength and rigidity.

Anti-climb spikes on the top of each panel will deter intruders, or the panel can be reversed and installed the otherway up to give a smooth top which is ideal for childcare centres and schools.

**WHAT’S GREAT ABOUT EUROMESH™**

**EXCELLENT VISIBILITY**
Wire mesh design provides security but still allows good visibility through the fence.

**SUPERIOR CORROSION PROTECTION**
Galvanized steel and powder-coated finish for longevity and safety.

**HARD TO CLIMB**
Narrow vertical spaces.

**SPECIFICATIONS:**
- Panel height: 0.630m – 2.330m
- Panel length: 2.485m
- Wire diameter: 5mm
- Finish: Black powder-coated standard

**QUICK AND SIMPLE INSTALLATION**
Easy clip installation.

**TOUGH WELDED PANEL**
Difficult for any intruder to cut.

**SPIKE TOP**
For added security when it’s needed.
Boundaryline SentryPanel is designed to provide superior protection of your investment and look great at the same time.

The spear-top option has sharply spiked bars to deter intruders and rod-top provides the same security without looking too unfriendly. Both styles have a long anti-climb gap making it a virtually unscalable barrier.

SentryPanel is constructed from heavy-wall aluminium componentry, welded for strength, and powder-coated for long-term durability. The modular design and comparatively light panel weight makes installation quick and easy.

SentryPanel is a smart, cost-effective security fencing solution for all types of commercial property.

We use the SentryPanel security fencing system and now call it our number one go-to product. It is strong, reliable, easy to work with and install economically.

Fencing retailer, Tauranga

  - Includes double top rails for extra strength and better appearance
Many commercial and industrial properties require a high level of security to limit unauthorised access. Boundaryline works with construction companies, property owners, and designers all over New Zealand to deliver reliable security gates solutions for all kinds of applications. SentryPanel gates are manufactured using standard in-stock componentry to achieve a quick and cost-effective solution that will perform to perfection for the long-term.

**SentryPanel™ GATES**

**RELIABLE INDUSTRIAL SECURITY GATES**

**SECURITY GATE SOLUTIONS**

**SWINGING GATES**

Swinging gates are the most cost-effective option when there is enough opening space, or when the entranceway is not level. They can be automated if required, but are usually used when the gates are not opened frequently.

**TRACKED SLIDING GATES**

Where traffic is relatively light, but a sliding gate is required, a tracked gate provides a cost-effective solution. The ground-track is very low profile and this type can be used with or without an automated opener.

**CANTILEVER SLIDING GATES**

Boundaryline has had extensive experience in designing and building cantilevered sliding gates. With no ground-track required, a cantilevered gate is ideal for industrial situations that have heavy traffic or where the entranceway is not level.

**OPTIONS**

**GATE AUTOMATION**
Automated drivers available for swinging or sliding gates

**ACCESS CONTROL**
A range of access control systems are available to suit every application

**CUSTOM DESIGNS**
We can supply custom-made gates to meet your design requirements
KiwiPanel is an ideal fencing system for cost-effective security in places such as pools, schools, and commercial properties. Manufactured to standard designs and specifications, these panels have superior anti-climb properties with a long anti-scale gap between the top and bottom horizontal wires.

Hot-dip galvanised for longevity, KiwiPanel is available in a standard galvanised finish or can be powder-coated to the colour of your choice.

**WHAT’S GREAT ABOUT KiwiPanel™**

**STRONG & DURABLE COMPONENTS**
Made from tough welded steel wire, hot-dip galvanised to beat rust

**LONG ANTI-CLIMB GAP**
For pool fencing and school boundary fences

**SPECIFICATIONS:**
- Panel height: 1.25m / 1.300m
  - 1.500m / 1.600m
  - 1.800m / 2.100m
- Panel length: 2.400m

**FOLDED TOP AND BOTTOM**
Folded profile makes this a strong, rigid design

**QUICK AND SIMPLE INSTALLATION**
Easy clip installation
KiwiLink fencing uses the time-proven, cost-effective chain-link system that has protected New Zealand commercial properties for generations. We make it simple. We provide the complete package of components assembled specifically for your project, using premium quality materials and fittings.

The galvanised pipe sizes and chain-link mesh options can be specified for your application, and barbed wire can be added to deter intruders.

**WHAT'S GREAT ABOUT KiwiLINK™**

**CHAIN-LINK MESH**
The proven security fence

**FLEXIBLE WIRE MESH**
Available in various specifications

**EASY TO INSTALL ON ANY GROUND CONTOUR**

**SPECIFICATIONS**
Line post / brace section size: 40mmNB
End / corner / tension post size: 50mmNB or custom size
Mesh size: 50x50x2.5mm, 50x50x3.15mm or custom size
Mesh height: 1.800m, 2.000m, or custom size
Finish: Galvanised or black-coated

**BARBED-WIRE CLIPS**
Easy installation of barbed wires - added to deter intruders

**QUICK AND SIMPLE INSTALLATION**
Bolt together fittings

**SUPERIOR CORROSION PROTECTION**
Top-quality galvanised mesh, posts, and fittings
From lifestyle blocks to large farms, entranceways to subdivision projects, Boundaryline Post&Rail is used all over New Zealand and in all kinds of ways.

Property owners find Post&Rail to be a cost-effective and easy way to make a massive difference to the appearance of their property.

The unique Boundaryline straight-through mortise means that the rails interlock in the post without the use of any hardware. This makes a strong fence that is simple to install, even on sloping ground and with curved lines. We use specially selected premium-grade timber to ensure our Post&Rail looks great for years to come.

With a wide range of options and the ability to supply custom-made systems, we can put together a Post&Rail solution exactly to your requirements and to enhance your landscape.

"We are delighted with our Boundaryline fence. It was a joy to build and we continue to enjoy its good looks. Its contour and length certainly enhances our property."

CUSTOM SOLUTIONS

Talk to us about custom-designed Post&Rail fencing systems.
Whether it’s oversized posts and rails, custom-shaped post tops, or a combination of great ideas, we can make your design a reality.
Boundaryline classic timber gates stand out from the crowd. Made in a traditional style to match our Post&Rail fencing, these are not your average farm gates.

With a focus on manufacturing quality, the classic timber gates have thicker rails for added strength, dressed timber for a sleek finish, and supplied with black powdercoated hardware and hinges to complete the look.

**WHAT’S GREAT ABOUT LIFESTYLE TIMBER GATES**

**WRAP-AROUND STRAP HINGES**
For strength and durability

**BLACK HARDWARE AND LATCHES**
For a premium look

**HEAVIER RAILS**
For more strength

**DRESSED TIMBER**
For a refined appearance

**BOLTED CONSTRUCTION**
All joints are fixed with black bolts for strength

**SHEFFIELD**

Boundaryline bollards are the ideal cost-effective way to block vehicle access to parks, reserves and walkways, while allowing easy entry for pedestrians and cyclists.

Boundaryline bollards are made to our standard designs or to your own specification.

We use only premium landscape grade timbers: radiata pine and macrocarpa, or if required, a selection of sustainable hardwoods.

We manufacture custom-designed bollards including metalwork features and signage if required. Speak to us to make your ideas become reality.

**TIMBER BOLLARDS**

FOR WHERE VEHICLES CAN’T GO, BUT PEDESTRIANS CAN

**TIMBER BOLLARD SOLUTIONS**

**SQUARE BOLLARDS**

**ROUND BOLLARDS**

- Post size: 150mm / 200mm diameter
- Length: 0.9 / 1.2 / 1.5 / 1.8m
- Timber: Treated radiata pine
Gates and entranceways are an important component of landscape design and are essential to secure and enhance your property.

The Boundaryline custom gates range is manufactured by our sister company Heritage Gates who for over 20 years has been a trusted manufacturer of custom fence and gate solutions.

Manufactured in both premium grade timbers or aluminum, our custom gates combine innovation with tried and proven manufacturing methods to deliver exceptional quality and functionality for many years of reliable service.

I love the fence and gates! The team were great to deal with and the result is impressive.
